

RECUP/EC BS

High efficiency heat recovery units with counterflow plate heat exchangers, automatic control and EC technology motors, for installation in false ceilings

Common characteristics:

- Plug Fan type EC fans regulated from a 0-10 V signal.
- Built-in maintenance section switch.
- Thermal efficiency between 85-90%.
- High quality reinforced aluminium frame structure.
- Panels with a 25 mm thick thermal and acoustic insulation; exterior made of prefinished sheet.
- XPS type panels with thermal bridge break.
- High efficiency filtration:
 - M6+F8
 - F7+F9
- Wide access for maintenance.
- Free cooling with motorised BY-PASS hatch.
- Condensate collection and drainage tray.

Built-in control panel:

- Free cooling control by means of a motorised BY-PASS.
- Fan speed control by manual selection or by optional external sensors (CO₂ or pressure).
- Built-in control system with remote control panel.

- STOP / START and speed control available through control panel or external contacts.
- Built-in temperature and humidity sensors.
- Filter status control by means of built-in pressure switches.
- Fault and fire alarm shut down management.
- Compatible with MODBUS RTU.

Finish:

- Aluminium frame and external prefinished sheet structure.
- Panels with a 25 mm thick thermal and acoustic insulation.
- Low profile for installation in false ceilings.
- Interchangeable connections for more versatility.

On request:

- External battery modules for air treatment.
- Special efficacy filters.
- Modules with UVc germicidal chamber.
