## Description

- Max temperature of transported air 120°C
- Speed-controllable
- Integral thermal contacts
- Low sound level
- Weather protection for the motor is standard
- Drain plug for liquids that accumulate in the casing is standard

The KBT fans have impellers manufactured from galvanised sheet steel with forward-curved blades. The casing is manufactured from double-skinned galvanised sheet steel and is insulated with 50 mm mineral wool.

The KBT fans have a swing-out door for easy inspection and service. The fan is isolated from the casing via connectors and anti-vibration dampers are incorporated into the base frame.

To protect the motors from overheating the KBT fans have integral thermal contacts with external leads for connection to a motor protection device.
