Description

Slim air curtain with EC motor and integrated controls, for cold rooms and entrances

Recommended installation height for entrances: 2,5 m*
 Installation height for cold storage: up to 4 m*
 PAECS creates an effective barrier between temperature zones. Stepless control that can be set for open and closed door allows precise adjustment for every installation, with optimised protection at the lowest possible energy consumption. PAECS is the perfect choice for cold room and freezer applications, and also for entrances, e.g. to air conditioned premises.
