Our Address

Puravent, Adremit Limited, Unit 5a, Commercial Yard, Settle, North Yorkshire, BD24 9RH

Indoor air purifiers are a great advance for health, since they eliminate dust particles, mites and a multitude of bacteria and microorganisms harmful to people, as well as unpleasant odors, reducing respiratory conditions such as asthma and allergies of all type.

Nowadays, having an efficient and silent air purifier at home as well as at the office and in frequented public spaces is essential to ensure we are breathing a quality air that is free of organisms that are harmful to health.

PURI-50 MODEL

This system incorporates a digital panel that, in automatic mode, continuously monitors the air quality and the concentration of fine particles in the air.

Model	PURI-50
Maximum effective working area (m ²)	45-50
Air flow rate (m ³ /h)	400
Noise level (dB)	<56
Supply voltage (V)	100-240 V 50/60 Hz
Power consumption (W)	50
Weight (kg)	4.8
Size — height x length x width (mm)	562 x 270 x 303
Timer (h):	2/4/8

Its cylindrical design allows air to be drawn in through a large surface area, increasing its efficiency and filtration performance.

Excellent filtration power thanks to a drum type filter with three stages of filtration. The first stage captures large PM_{10} particles such as dust, fibres and lint. The second stage captures particles between $PM_{0.3}$ and $PM_{2.5}$ in size, such as pollen and spores. The third stage eliminates odours generated by tobacco, cooking and pets.

Technical characteristics

- Built using the high performance E.C. Technology motor
- HEPA H13 type filters with a filtration efficiency of 99.95%
- Digital control panel
- Air quality control sensor
- Colour indicator lamp indicates air quality
- Automatic, manual and timer modes
- Anti-bacteria and virus stage with UVC ultraviolet led
- Different filtration stages
 - Large PM_{10} particles filter
 - HEPA fine particles filter
 - Volatile and foul odour organic compound filter
